

# Keep Illinois Kids Safe

Children Visit the Emergency Department (ED) for **Falls** and **Traumatic Brain Injury (TBI)** more than any other Injury

Cost of ED Visits<sup>2</sup>

All injuries combined = \$889 Million

Falls = \$305 Million

TBI = \$79 Million

ED Visits<sup>1</sup>  
per Day

391 due to all injuries combined

109 due to Falls

35 due to TBI

## Prevention Tips<sup>3</sup>

### Falls

Supervise children around fall hazards, such as stairs and playground equipment, at home, or when out to play.

Make sure the surface on your child's playground is made of shock-absorbing material, such as hardwood mulch or sand.

Keep sports and play activities safe by encouraging the use of appropriate protective gear.

Encourage helmet use when playing sports, and riding bikes and skateboards.

Use home safety devices, such as guards on windows that are above ground level, stair gates, and guard rails.

Ensure children are using the proper safety belts and seats when riding in vehicles.
