S9999	<p>Continued From page 2</p> <p>by:</p> <p>Based on observation, interview, and record review, the facility failed to ensure a resident was free from resident-to-resident physical abuse. This failure resulted in the facility seeking medical attention at the local hospital for R1, and R1 sustaining bruising and abrasions to her nose and face.</p> <p>This applies to 1 of 3 residents (R1) reviewed for resident-to-resident physical assault in the sample of 3.</p> <p>Findings include:</p> <p>On October 5, 2021 at 10:25 AM, R1 was lying in bed. R1 had dark blue to purple bruising over the bridge of her nose, extending under her lower right eye, and bruising and scabbed abrasions across her left lower jawline. Due to her cognitive impairment, R1 was unable to recall how she sustained the injuries to her face. R1 was alert and oriented to her name only. R1 touched the affected areas with her hand and said the areas were painful when she touched them.</p> <p>The EMR (Electronic Medical Record) shows R1 was admitted to the facility in October 2018 with multiple diagnoses including dependence on renal dialysis, edema of left orbit, diabetes, dementia without behaviors, urinary tract infection, gastrointestinal hemorrhage, diverticulosis, chronic pain, transient cerebral ischemic attack, and end-stage renal disease.</p> <p>R1's MDS (Minimum Data Set) dated June 24, 2021 shows R1 has moderate cognitive impairment, requires extensive assistance by two facility staff members for transfers between</p>	S9999

She had a laceration on her left cheek and a bruise on her nose and she also stated she was hit on her chest. I made sure she was stable and safe. I rolled [R1] to another room and I called [V2] (Director of Nursing/DON) and I called the doctor and I received an order to send both residents out to ER via 911. The police came and did a report. I felt afraid of [R2] after she hit the resident. She was agitated and screaming. [R1] cannot walk and is confined to her bed or the chair. [R1] cannot fight back. She was upset and afraid. [R1] told the police, 'I was scared to death.' The police asked [R1] what was going on and [R1] said, 'She [R2] attacked me.' S9999	<p>Continued From page 10</p> <p>...IV. Establishing a Resident Sensitive Environment. This facility desires to prevent abuse, neglect, exploitation, mistreatment, and misappropriation of resident property by establishing a resident sensitive and resident secure environment. This will be accomplished by a comprehensive quality management approach involving the following:</p> <p>Concern Identification and Follow-up: Resident and family concerns will be recorded, reviewed, addressed, and responded to using the facility's concern identification procedures. Residents and families will be informed of the facility's concern identification procedures. An essential element of "customer satisfaction" is a timely response back to the family or resident to concerns expressed. At least quarterly, the reported concerns from residents and families, and the facility response, will be reviewed by the facility Quality Management committee to assure that individual concerns are being addressed and to assess any patterns that might indicate needed changes in facility practices.</p> <p>Resident Assessment: As part of the resident's life history on the admission assessment, comprehensive care plan, and MDS assessments, staff will identify residents with increased vulnerability for abuse, neglect, exploitation, mistreatment or misappropriation of resident property, or who have needs and behaviors that might lead to conflict. Through the care planning process, staff will identify any problems, goals, and approaches, which would reduce the chances of abuse, neglect, exploitation, mistreatment or misappropriation of resident property for these residents. Staff will continue to monitor the goals and approaches on a regular basis and update as necessary.</p>	S9999
