S9999	<p>Continued From page 2</p> <p>These Regulations were not met as evidenced by:</p> <p>Based on interview and record review, the facility failed to follow their discharge and transfer policy by not communicating with the appropriate person of the receiving facility prior to discharge, failed to forward medical record documentation and discharge paperwork to the receiving facility and failed to ensure the receiving facility had accepted the resident and could meet the medical and psychosocial needs of R1 reviewed for discharge and transfer policy and procedures. This failure resulted in R1 being discharged to a homeless shelter, in which R1's physical and mental needs could not be met putting him at risk for abuse, physical and/or psychosocial harm.</p> <p>Findings include:</p> <p>According to a face sheet, R1 was admitted to the facility on 8/18/21. R1 is a 79-year-old resident with the following diagnoses: dementia, Alzheimer's disease, psychosis, and major depressive disorder.</p> <p>R1's Care Plan dated 8/19/18 documents R1 is at risk for increasing confusion secondary to dementia. R1 also has a diagnosis of psychosis and depression. An intervention is documented as reality orientation as needed. The Care Plan dated 8/23/21 documents R1 is at risk for abuse due to medical and psychological diagnosis. The Care Plan dated 8/23/21 documents R1 is unable to access community independently due to medical issues and ambulation. The Care Plan dated 8/23/21 documents R1 has a diagnosis and history of severe mental illness. R1 has a diagnosis of major depressive disorder,</p>	S9999

S9999	<p>Continued From page 6</p> <p>other plan and is homeless at this point. When asked why he came to the VA facility today R1 responded "I told them to bring me here because I wanted to check the place out. It has been a while." R1 is alert and oriented to place in time but does not make safe and logical decisions when it comes to discussing R1's current situation and medical issues. R1 is noted with sort of flight of ideas and refers to seeing things. R1 says R1 wants to go get a car which is parked somewhere for past many months and then says R1 does not have a key or a driver's license. There is no specific complaint at this point. The admission diagnoses are documented as social issues/homelessness status and urinary tract infection. Social services came to evaluate R1 and are working on various options but currently recommend to admit to the medical floor in the hospital until further arrangements are made. R1 states he is taking blood pressure medication but cannot recall what it is or when it was taken. A review of previous records document R1 is on and antihypertensive medication from a note in 02/2021. No other paperwork was noted with R1. A medication reconciliation was not able to be completed.</p> <p>On 11/30/21 at 1:11PM, V17 (VA facility Admissions) stated, "When people call here, I get them registered for care. There are registered for primary care appointments. We do have like a long-term area here and a homeless area but I don't register anyone for that. If they were trying to get over there, I would transfer them to that department. You have to be eligible for those areas though. I don't remember anyone by that name (R1) but if I did register them it wasn't for long term care. I don't remember talking to anyone from that facility."</p>	S9999

S9999	<p>Continued From page 7</p> <p>On 12/1/21 at 11:49AM, V13 (Patient Advocate) stated, "On November 16th, R1 showed up with a transporter at the main entrance and asked where to go. The transporter told me the facility told the transporter to just drop R1 off here. I called V12 (PRSC/ psychiatric rehabilitative service coordinator) and V12 had no idea where R1 was supposed to go. V12 told me R1 facilitated the discharge by himself. V12 was basically blaming R1 for not knowing where R1 should be. V12 told me R1 called registration and they registered R1. I explained to V12 that was only for primary care and to find a doctor not for any admission here. No one over there confirmed where R1 was going. They just sent R1 here. R1 then refused to go back so I sent them over to the emergency room to get a place to stay."</p> <p>On 12/1/21 at 3:40PM, V15 (VA facility Social Worker) stated, R1 called me at the end of October, November 3rd, and November 5th. I spoke with R1 on the 5th and R1 reported wanting new placement. I suggested to R1 to go through the facility he was at currently and we couldn't help R1 because R1 is not currently homeless. I spoke with V5 (Social Services Director) also that day. I told V5 R1 was interested in finding new placement but there was no mention of R1 coming here. V5 described R1 as having dementia and Alzheimer's, and R1 thought he could physically do more than he was capable. I explained to V5 due to R1's war wounds not being severe enough, R1 could not qualify for our long-term program here. I also explained for the homeless shelter R1 was not capable to be admitted because R1 was in a wheelchair. We do more assisted living placements. We don't have an actual shelter here. S9999	<p>Continued From page 8</p> <p>in my note on the 5th when I spoke with V5. I know R1 registered with V17 from admissions. V17 told R1, he was all set to come and R1 was set to come for primary care. R1 has a dementia diagnosis and might have understood that differently. During the admission process, we would need to assess R1's physical and mental status to see if R1 qualified here and none of that was started.</p> <p>Based on the information above the facility made no arrangement to retrieve R1 from the acute care facility and R1 refused to be sent back to the facility. The VA acute care facility staff had to make arrangement for R1 to be taken to the emergency room and later to be transferred to the VA homeless shelter.</p> <p>4. On 11/30/21 at 1:31PM, V12 (PRSC) stated, "The resident came up to me and told me he wanted to be discharged to that (VA) facility. R1 called on his own phone and I listened in and I was asking questions too. They told us ok that R1 was registered and R1 could come anytime. I never seen a discharge like that before. R1 set up his own transportation and left that same day. When R1 got there, they acted like they didn't know who R1 was. R1 refused to come back then and R1 was taken to the homeless shelter, I think. Normally, we send over paperwork they need to the facility and someone comes out to assess them or talk to them. They are accepted and then they give us a room where they are going and then they transfer over. We didn't fax anything over because they said they had R1 in the system already. R1 had been there before so I thought R1 knew where R1 was going. They acted like they didn't need anything. We send what they ask for over to make sure their level of care is accepted."</p>	S9999

S9999	<p>Continued From page 9</p> <p>On 12/1/21 at 12:51PM, V5 (Social Services Director) stated, "V12 was overseeing the discharge but I know V12 spoke with two representatives from the VA, and they cleared R1 to come back over. Then when R1 got there they said they weren't aware R1 was coming. I know R1 was taken to the homeless shelter from what they told me on the phone. For discharges, we confirm the location, date, and time when they are getting ready to go. We set up any follow up appointments if needed. We normally talk with the admission coordinator. We send over paperwork depending on what they request. They didn't request anything. R1 didn't want to come back then and they ended up telling me they found a place for R1 to go. I think the homeless shelter has nurses and aides there at the homeless shelter to help the people. R1 didn't have community access when R1 was here. R1 wouldn't be able to get around out there alone. I was told the homeless shelter was going to assist with placement after R1 got there. That wasn't a permanent place for R1 to stay. R1 does have a past history of homelessness."</p> <p>On 12/2/21 at 12:46PM, V16 (Psychiatrist) stated, "R1 has a diagnosis of psychosis, major depressive disorder, and dementia. I do not remember being notified about R1's discharge but another doctor could have been. R1 was a poor historian and was not being forthcoming during my questioning. R1 was minimizing the severity of R1's own mental illness. I used to work at the VA, so I know you have to submit a stupid amount of paperwork to get in there. I also know someone from there comes out to evaluate the residents. I would hope R1 would be placed in the long term or mental illness area of the facility versus the homeless shelter. There are going to</p>	S9999

S9999	<p>Continued From page 13</p> <p>and assistance to prevent accidents.</p> <p>Section 300.3240 Abuse and Neglect</p> <p>a) An owner, licensee, administrator, employee or agent of a facility shall not abuse or neglect a resident. (Section 2-107 of the Act)</p> <p>These Regulations were not met as evidenced by:</p> <p>Based on interview and record review, the facility failed to vaccinate a resident during two vaccine clinics and failed to allow family to take this resident out of the building to be vaccinated for 1 (R8) resident reviewed for immunizations. This failure resulted in R8 developing severe symptoms, and was transported to the local hospital, where R8 was admitted to the hospital for Covid 19 complications.</p> <p>Findings Include:</p> <p>R8 is a 38 year with the following diagnosis: cerebral palsy, quadriplegia, and pressure ulcer of the sacral region. R8 admitted to the facility on 9/15/21.</p> <p>A Nursing note dated 11/9/21 documents the administrator called R8's power of attorney to discuss concerns. The power of attorney wanted to know why family is not allowed in the facility and why R8 has not been COVID-19 vaccinated yet. The administrator educated the power of attorney that during an outbreak no one is able to come into the facility and all outdoor and indoor visits are canceled. The power of attorney was also informed visits will return when the facility is no longer in outbreak status.</p>	S9999

S9999	<p>Continued From page 14</p> <p>ANursing note dated 11/20/21 documents R8 was noted to be positive for COVID-19 and isolation protocol was initiated. The family for R8 was notified around 11 PM of R8's status.</p> <p>ANursing note dated 11/21/21 at 6:08PM documents R8's power of attorney was called and informed that R8's wound to the sacrum was getting worse. The power of attorney was also notified that the wound physician changed treatments and R8 is refusing to eat much.</p> <p>ANursing note dated 11/21/21 at 6:40PM documents R8's face is flushed. R8 is warm to touch and congested. R8 is febrile with a temperature of 102, a heart rate of 138, and a low oxygen level at 80%. R8 was started on 4L of oxygen per nasal cannula and 911 was called. R8 was transferred to the hospital for evaluation.</p> <p>On 11/23/21 at 9:55AM, V29 (Family Member) stated, "R8 was sent there in September and we wanted R8 to have the vaccine in a place like that around everyone. We would constantly call and check to see why she wasn't vaccinated yet, but no one could give us an answer. I know my wife got the consent signed in October. I don't remember the date but R8 never ended up getting vaccinated. They called us and told us R8 had COVID on November 20th. A couple days after that R8 was being sent to the hospital for trouble breathing from COVID. R8 is on a COVID unit right now and has to have oxygen on all the time. The one time when we called, we were told that they only have the booster shots available right now. I offered to come get R8 to take R8 to a local drugstore or someplace I could find the vaccine since they couldn't give it, but they kept telling us we couldn't take R8 out because there was an outbreak. I even asked if I could have</p>	S9999

If they aren't, we ask them if they want the vaccine or not. If they do then they get put on the list to get the vaccine when we have another clinic come by or another pharmacy. Right now, we just had a Grocery Chain Store come out yesterday and vaccinate people. We usually have people come out about once a month. We have them sign a consent or their POA before to make sure it's ready. I remember getting a call from the family asking about it and we had just gone into lockdown then. We don't have someone come out just to vaccinate one person. I was having staff walk people over to (large department store) right before the lockdown happened to get their shot if they wanted one. We couldn't get R8 over to (large department store) before the outbreak started here and then I couldn't let R8 go out or let anyone else come in. I don't remember the dates the clinics were held before that. The pharmacist schedules them. Then she ended up getting COVID and being sent out, so we never got the chance, but she was scheduled to get it when they were here yesterday. She was admitted in September.</p> <p>On 12/14/21 at 2:51PM, V20 (Pharmacist) stated, "I work with places to schedule vaccines for the residents. We either have the vaccines delivered here and run the clinic through (name of Provider) or we source through another pharmacy that will come out. We have been in the facility about once or twice a month doing them. We do the first round and then follow up with the second dose</p>	S9999

S9999	<p>Continued From page 16</p> <p>about 21 days later. We held vaccines through Grocery Chain Store yesterday. The Chain Store was also scheduled on 10/19. The last clinic day through (name of Provider) was on 10/7. If R8 was admitted in September, I was there twice in October so R8 should have been seen if R8 was on the list. I can't tell you how they get the people on the list. I just know to bring a certain amount of vaccines for the number that is needed. I don't know why R8 wasn't vaccinated if R8 wanted to be. We try to educate as best as possible for people to get vaccinated especially living in areas where there are a lot of people. Being vaccinated in a facility has shown us that the number of hospitalizations for COVID complications have decreased if there is an outbreak."</p> <p>The Care Plan dated 9/16/21 documents R8 is at risk for potential exposure to COVID-19 and/or potential risk to spread to others.</p> <p>The COVID-19 Vaccine Consent Form dated 10/27/21 documents R8 has not been vaccinated and R8's power of attorney has given permission for R8 to be vaccinated.</p> <p>The laboratory report dated 11/20/21 documents R8 was positive for COVID-19.</p> <p>COVID-19 monitoring form dated 11/2021 and 11/21/21 documents R8 was monitored every four hours for a change in symptoms and vital signs. R8's vital signs for 11/21/21 are as follows: heart rate at this time is documented as 138 beats per minute (normal is 60-100 beats per minute), the respiratory rate is documented as 22 breaths per minute (normal is 12-16 breaths per minute), the temperature is documented as 102 degrees Fahrenheit (normal is 97-99 degrees Fahrenheit), and the oxygen level is documented as 80% on</p>	S9999
